INTRODUCTION

The McDermott Library of the U.S. Air Force Academy is pleased to offer the ninth supplement to the bibliographical series, *United States Air Force Academy: A Bibliography 1954-1964*, entitled *The United States Air Force Academy: A Bibliography 2011-2015*. This publication identifies materials related to the Air Force Academy from selected sources over a five-year period from 2011 until the end of 2015. It also includes some items published prior to 2011 that were not captured in the previous supplement.

The bibliography provides a starting point for students, scholars and others interested in finding materials pertaining to the Air Force Academy. Most items cited in this bibliography are available from the McDermott Library collections. The bibliography is arranged by topic and within each category references are listed alphabetically by author or responsible organization, or where no author is given, by title.

In addition to the quinquennial bibliographies, *United States Air Force Academy: A Bibliography* series started in 1964, the McDermott Library published "High Flight: History of the U.S. Air Force Academy" in the *Special Bibliography Series* (No. 109). Compiled by Mr. Joseph Barry for the 22nd Military History Symposium in September 2009, it captures more than 50 years of Academy history.

We welcome suggestions for additions and any important documents about the Air Force Academy that were not cited in this or past bibliographies. Questions and comments about this addition to the bibliography series should be addressed to Mr. Barry at:

HQ USAFA/DFLIB
Attn: Mr. Joseph Barry

USAF Academy CO 80840-6214

Access to the current and past issues of the *United States Air Force Academy: A Bibliography* series is available online from the McDermott Library's web portal as well as the Defense Technical Information Center (DTIC). Our library web address is the following:
